

INITIAL COMPARISON MATRICES

Please compare (by putting “√”) degree of severity between each pair of criteria according to your understanding and experience

1 = Equally, 2 = Weakly, 3 = Moderately, 4 = Moderately plus, 5 = Not bad, 6 = Strongly, 7 = Very strongly, 8 = Absolutely strong, 9 = Extremely

PRACTICES FOR COTTON PEST AND DISEASE MANAGEMENT

Criteria	Left criteria is greater								Equal	Right criteria is greater								Criteria
	9	8	7	6	5	4	3	2		1	2	3	4	5	6	7	8	
Resistant cultivar																		Seed treatment
Resistant cultivar																		Bt with non-Bt cotton
Resistant cultivar																		Crop rotation
Resistant cultivar																		Border crop
Resistant cultivar																		Botanical spray
Resistant cultivar																		Pheromone traps
Resistant cultivar																		Yellow sticky cards
Resistant cultivar																		NEFR technology
Resistant cultivar																		Chemical control
Seed treatment																		Bt with non-Bt cotton
Seed treatment																		Crop rotation
Seed treatment																		Border crop
Seed treatment																		Botanical spray
Seed treatment																		Pheromone traps
Seed treatment																		Yellow sticky cards
Seed treatment																		NEFR technology
Seed treatment																		Chemical control
Bt with non-Bt cotton																		Crop rotation
Bt with non-Bt cotton																		Border crop
